

# MAC SW78R GEMMA

## The 1,300mm Heavy-Duty Industrial Ride-On Sweeper

- Superb reliability and build quality
- Forward and reverse traction
- Twin front brush system
- Perfect for heavy-duty industrial sweeping
- Large 115lt waste hopper
- Available in manual or hydraulic hopper versions

### KEY SPECIFICATION

780mm Central Brush Width

1300mm Total Sweeping Width

9,500m<sup>2</sup>/hr Cleaning Performance

Battery or Diesel

# MAC SW78R GEMMA

## STANDARD FEATURES

- Battery or diesel models available
- Robust full steel chassis and GRP side panels
- Simple mechanical operation
- 1300mm maximum sweeping width
- 8 x Polyester cartridge filters as standard
- Forward and reverse traction
- Heavy-duty superelastic rubber wheels
- Mechanical controls for lifting front brush and main brush
- Quick replacement of the brushes with no need for tools
- Automatic brush start
- Electronic speed control
- Electric filter shaker and wet pick up shut-off system
- Hopper lifting flap for bulky waste collection
- Flashing beacon
- Hour counter and battery level indicator
- Seat safety sensor
- Safety horn and parking brake
- Complete with PPL main brush and side brushes

## OPTIONAL ACCESSORIES

- Overhead protection
- Complete enclosed cab with air conditioning
- Hydraulic assisted hopper system
- Reversing buzzer
- Choice of cartridge or pocket filters

## AREAS OF USE

- Barns
- Potato Sheds
- Large Factories
- Warehouses
- Engineering
- Production Areas
- Outdoor Areas
